KOSUGAR

HOW KOSUGAR HELPS LOWER BLOOD SUGAR LEVEL

MOUTH Reduce Sugar Craving

STOMACH Delay Food To Intestines

PANCREAS
Inhibit Glucose Breakdown

LIVER
Inhibit Liver Glucose Production

=Lower Blood Sugar

(-) Glucose In
Inhibit Liver Glucose Production

(-) Glucose Out
Improve Insulin Sensitivity & Reduce Insulin Resistance to Quickens Glucose to Cells

Reduce & Delay Glucose To OurBloodstream → **Quickens Glucose To Cells**

HELPS YOU TO FIGHT AGAINST HIGH BLOOD SUGAR LEVEL

- By suppressing our sugar craving, this will reduce our intake of excessive sugar food.
- By slowing or delaying the intake of glucose into our blood system.
- By improving or reducing insulin resistance to facilitate the flow of glucose from our blood vessels to our cells to be metabolized to generate energy.
- By improving insulin sensitivity to improve response of cells to take in glucose.
- Help rejuvenate and maintain the pancreas in our body that produces substances (INSULIN) that improves the rates of glucose into our cell.

REDUCE SUGAR | RESTORE HEALTH

BECOME A LEANER PHYSIQUE

- Effective & Practical Solution for Controlling Healthy Blood Sugar Level.
- Contains a lot of OTHER HEALTH BENEFITS to help us achieve Holistic Health.

If want to lose weight REDUCE SUGAR

Who should take it? KOSUGAR

Those who gain weight, find it difficult to lose weight, get tired easily, have poor energy, love sweets, are prone to hunger, are thirsty, have foamy and frequent urination, have headaches,have decreased vision, are prone to numbness in their limbs, have a compromised immune system and suffer from skin diseases and itchy skin, anxious and irritable, with wounds that are difficult to heal.

KOSUGAR

HEALTH MADE EASY

How to Reduce Blood Sugar Level for Better Health

Lack of insulin

Eating too much sugary or starchy food

WHAT ARE THE MAIN CAUSES OF HIGH BLOOD SUGAR?

Insulin resistance issues

Being less active than usual

FOR DIABETICS:

- It should not be used as a substitute for any diabetes medication
- People who are taking diabetes medications should not reduce their diabetes dose without first getting advice from their doctor
- People with diabetes need to monitor their blood sugar levels closely, and regular blood sugar tests can help track the body's response to adjustments to medications and supplements.
- May exacerbate hypoglycemic effects. This overlapping effect may push blood sugar too low, causing hypoglycemia (blood sugar levels below normal range), which may cause dizziness, confusion, weakness, and in severe cases, loss of consciousness. Individuals should learn how to recognize and respond to these symptoms.
- Switching from an anti diabetic medication to a supplement like KOSUGAR requires a thoughtful, closely monitored approach to ensure it is both safe and beneficial to an individual's health. Always consult a medical professional before making any changes to your medication regimen.

6 KOSUGAR KEY ACTIVE INGREDIENT

GURMA (GYMNEMIC ACID)

- Blocks sugar receptors on tongue to inhibit sugar craving.
- Delays glucose absorption by filling the intestinal glucose absorption receptor to prevent glucose from binding to its receptor.
- Inhibits both the: α-amylase & α-glucosidase, to prevent rapid conversion of carbo into glucose.

OKRA, LADY'S FINGER

- Delays the digestion and absorption of sugars, leading to a more gradual release of glucose into the bloodstream. This can contribute to better blood sugar control.
- Contains various antioxidants that help protect the cells in the pancreas from oxidative stress to assure good insulin production.
- Improves insulin sensitivity, which means it may improve the body's response to insulin.

CINNAMON

- Slows down rate of food being moved into intestines for digestion and absorption into blood system.
- At cell level, improves insulin sensitivity to improve intake of glucose to cell.
- Anti inflammatory.

MULBERRY LEAF

- Inhibits intestinal absorption of glucose.
- Inhibits liver glucose production.

BITTER MELON (MOMORDICA)

- Relieves insulin resistance.

SAKURA

- Benefits of skin care.
- Anti aging.

KOSUGAR PRODUCT TESTIMONIALS:

Big change in the basics!

-Significant changes in body shape
-The fat on the waist has also shrunk
-To be fit or have a line

Effective within 2 Month!

-The puffy belly is gone
-Smaller waist
-Skin tone/body confidence

Combination of 2 products

Strategically applying **Scientific principles**

Allows you to easily achieve double efficacy in healthy weight loss
