In 2013, Professor David Sinclair, Senior Research Investigator, Professor of the Department of Genetics of Harvard Medical School published a study in (Cell) on how

"Supplementing NAD+ precursors can effectively delay and even reverse aging process"

David Sinclair has won more than 25 awards, including The Australian Commonwealth Prize, Helen Hay Whitney Postdoctoral Award, Nathan Shock Award from the National Institutes of Health, Genzyme Outstanding Achievement in Biomedical Science Award, Bio-Innovator Award and Bright Spark Award for Top Scientists Under 40, etc for more than 35 patented inventions..

"Nature" "Science" "Cell" World scientific research journals biologists.

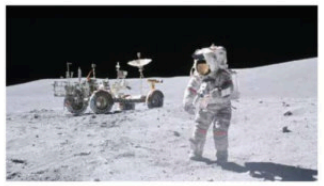

Career achievements:
Founder of six companies, Co-Director of the Paul F Glenn Center for the Biology of Aging at Harvard Medical School

Personal influence:
Rated as one of the 100 most influential people by Time magazine and the most influential synthetic biologist in the world.

NMN has obtained funding from NASA for its study in DNA repair function and protection of blood vessels and muscles.

It is attributed to its DNA repair capabilities and recognised as a recipient for the NASA iTech Top 10 Award in 2016.

Based on the DNA repair effect by consuming NMN, NASA (National Aeronautics and Space Administration) has begun their research in 2017 to protect astronauts from cosmic rays. Previous studies have shown that the DNA damage to astronauts caused by high-energy particle radiation in space leads to 5% of the body's cell death, causing significant aging. Majority of the time, this puts the person in an extremely high risk of cancer..

8 Nobel Prize Winners Support NMN Theory

Paul Modrich
Nobel Prize in Chemistry

Eric Kandel
Nobel Prize in Medicine

Daniel Kahnemam
Nobel Prize in Economics

Aaron Ciechanover
Nobel Prize in Chemistry

Jack Szostak
Nobel Prize in Medicine

Martin Karplus
Nobel Prize in Chemistry

Thomas Sudhof
Nobel Prize in Medicine

Sir Richard Roberts
Nobel Prize in Medicine

Business Leaders are Consuming & Investing in NMN

Warren Buffett
Warren Buffett, who is over 90 years old, and his subsidiaries have invested in multiple **NMN**-related industries, entering the**"Longevity Industry"**.

Li Ka Shing
Li Ka-shing **"felt great"** after taking the precursor of **NMN** and subsequently invested 25 million US dollars in shares.

Ji Keliang
Former Chairman of Moutai, Mr. Ji Keliang, pleasantly shared his feelings that he now sleeps better after taking **NMN.**

LIFEXT NMN BEAUTY

⋆ FORMULATED IN JAPAN ⋆

REJUVENATE THE SKIN
DEFY THE YEARS

Reverse Aging | Ageless | Youthful | Beauty

LIFEXT NMN BEAUTY

Anti-Aging and Whitening Powder

The latest NMN product that has been researched and developed by top researchers around the world in beauty and skin care. This product will bring all beauty lovers many astounding surprises. Different from other previous skin care products, **LIFEXT NMN BEAUTY** is an anti-aging product where its whitening powder can be consumed directly to repair your cells, increasing NAD+ genes to delay aging, improving both vitality and health from the inside to achieve a better tone and blemish on your skin.

- Clears up acne
- Improves your eyesight
- Increases skin elasticity
- Improves heart condition
- Effective for skin whitening
- Reduces lactic acid build up
- Reduces high blood pressure
- Repair dry and damaged skin
- Strong anti-oxidant properties
- Protects your skin against UV rays
- Reduces pain in the nerve and bone
- Provide relief for Premenstrual Syndrome (PMS)
- Strengthens your immune system in both body and brain
- Improves skin condition (eczema, inflammation, dermatitis etc)
- Maintain cellular health against damage caused by oxidative stress
- Reduces free-radical damage and LDL(bad cholesterol) while increasing HDL (good cholesterol)

Reactive Oxygen Species (ROS)

When we think of aging, the culprits tend to be prolonged exposure to the sun or an unhealthy diet. However, a lesser known contributor to accelerated aging is uncontrolled oxidative stress caused by an excess of free-radicals in the body. Also known as **Reactive Oxygen Species (ROS)**, free-radicals are molecules that causes oxidative stress to our bodies when they react with molecules other than antioxidants. If left uncontrolled,these free-radicals begin to damage our cells, causing a chain reaction with multiple consequences:

Accelerated degeneration of our skin cells caused by free-radicals leads to dull, flabby and prematurely wrinkled skin. This puts you at a higher risk of chronic health problems such as cardiovascular and inflammatory diseases, cataract, and even cancer.

LIFEXT NMN BEAUTY Main Ingredients

NMN

NMN consists of pure plant extracts from the allegedly called "longevity medicine" . The dietary supplements can effectively maintain the NAD+required by the human body to repair damaged DNA, increase vitality to delay aging and prevent diseases.

- ✓ Repairs DNA
- ✓ Anti-Aging: Improves sleep quality and memory
- ✓ Prolong lifespan (Maintains youthful body function)
- ✓ Reduces the risk of chronic diseases caused by aging such as hypertension, diabetes, dementia etc
- ✓ Improves the body metabolism to function just as one with a high metabolic rate (Maintains fat level and body shape)

Selenium

Selenium contributes largely to the well-being of your organs.

- ✓ Promote liver cell repair and regeneration
- ✓ Enhance the detoxification function of the liver
- ✓ Exhibits anti-oxidant properties, which helps to protect the cells from damage

Ceramides

Ceramides are a major component of the skin's surface. However, the production of ceramides declines during aging where the skin begins to sag and wrinkle.

- ✓ Effective for skin whitening
- ✓ Repair dry and damaged skin
- ✓ Improve symptoms of atopic dermatitis
- ✓ Combines with collagen peptide to increase collagen production
- ✓ Combines with hyaluronic acid to improve both moisturizing effect and elasticity of the skin while protecting the skin against allergens and UV rays

Torula Yeast (L-Glutathione)

Contains high level of cysteine peptide (glutathione)

- ✓ Anti-Aging
- ✓ Anti-oxidant
- ✓ Enhances the anti-oxidant function of Vitamin C
- ✓ Detoxification, cleanse the body of harmful substances and improves liver health

Evening Primrose Extract

- ✓ Clears up acne
- ✓ Improves heart condition
- ✓ Reduces high blood pressure
- ✓ Reduces pain in the nerve and bone
- ✓ Provide relief for Premenstrual Syndrome (PMS)
- ✓ Improves skin condition (eczema, inflammation, dermatitis etc)

Lycopene (Tomato extract)

- ✓ Improves your eyesight
- ✓ Strong anti-oxidant properties
- ✓ Protects your skin against UV rays
- ✓ Strengthens the brain immune system
- ✓ Reduces free-radical damage and LDL (bad cholesterol) while increasing the HDL (good cholesterol)
